

Product Manager / Product Owner (f/m/d) Goal Setting & Check-ins

Workpath is seeking a product manager / product owner to lead product efforts across its Goal Setting and Check-in modules as part of the core product team. In this role, you'll oversee the development of features that define how hundreds of teams set goals and communicate progress in weekly conversations. Fundamentally, you'll strive to give teams more autonomy, participation and purpose at work and enable organisations to transform into networks of self-organised, interdisciplinary teams.

In this role you will:

- Craft feature concepts in close cooperation with our end user customers, engineers, designers, customer success and sales experts
- Conduct on-site and remote sessions with various stakeholders of our B2B enterprise customers to gain first-hand insights and feedback
- Develop a product strategy and feature roadmap, while always considering technical, customer and business implications
- Develop appropriate planning, prioritization, and release management processes to launch new features at a fast clip

Here is what we are looking for:

- 2+ years of experience in B2B product management, preferably with enterprise SaaS customers; strong technical background is a plus
- Good and empathic listener, who has a relentless desire to understand customer needs
- Positive, hands-on mentality and the ability for mediating competing interests and finding creative solutions
- Real passion for supporting organisations to transform into agile and learning networks
- Fluent in spoken and written English and German

What you can expect:

- Be part of our lean, [value-driven](#) team where you co-shape the company
- Eat lunch together and join our team events
- Pick your own computer & accessories
- Flexible work arrangements (think: work-life balance, remote work, flexible hours)

Workpath is a successful B2B SaaS startup headquartered in the heart of Munich with customers like Trivago, Burda, Pro7, Scout24 and HolidayCheck. With our solutions for agile goal setting, feedback and communication, we help established companies to transform themselves into network organizations of autonomous and cross-functional teams. Join us and collaborate directly with our interdisciplinary team to shape the future of work for thousands of employees towards more autonomy, participation and purpose at work.
